✓ Mains Electric

✓ Mains Water

These two enormous plots in Yecla offer an exceptional opportunity for those looking to invest in land with extraordinary potential. With a total area of 50,000 square meters each, these plots are available for sale at a price of just 1 euro per square meter, making them a highly attractive option for investors and developers alike. Both plots have access to essential services, including electricity and water supply, making them ideal for a wide range of projects, from residential development to agriculture or the installation of renewable energy. The location in Yecla adds additional value to these plots, as the town offers a unique combination of rural charm and urban amenities. With its thriving wine industry, rich history and stunning natural landscape, Yecla attracts local residents and tourists alike, ensuring a constant flow of opportunities for any project developed on these plots. The sale of these plots can be done both jointly and separately, giving buyers flexibility in terms of the size and scope of their project. Whether interested in a single plot for a specific project or wish to acquire both for a larger scale investment, these plots offer unlimited potential for those with vision and determination. In summary, these two huge plots in Yecla represent a unique opportunity in the real estate market, with their generous size, access to basic services, and a highly attractive price of 1 euro per square meter. Whether developing residential, commercial, agricultural or renewable energy projects, these plots offer the perfect canvas to turn dreams into reality.
